## PARTS & PRICE LIST

MINIMUM ORDER \$25.00

EFFECTIVE APRIL 15, 2008

### FOR THE SAKE OF YOUR EMPLOYEES...

Make periodic and detailed inspections of presses and devices to ensure that they are in safe operating condition.

Perform and complete necessary maintenance and repairs before operating the presses.

Keep records of inspections, maintenance, repairs and adjustments as required by OSHA regulations.

Be sure inspections, maintenance and repairs are done by competent people.

Maintain an adequate stock of parts. Do not substitute homemade parts or effect "repairs" by welding, straightening or otherwise tinkering with damaged parts.
